

Our planet, our future

With more focus than ever on the preservation of the environment and protection of the world's natural resources, our service aims to minimise the footprint your company makes on our planet.

The European Parliament and Council Directive 94/62/EC on Packaging and Packaging Waste encourages industry to:

Reduce

Recycle

Re-use

Our service facilitates the re-use of transit packaging and assists our customers in undertaking a proactive approach when addressing their responsibilities under this EU directive.

E.L.M's services contribute to the global endeavour to reduce packaging waste by providing a real multi-trip solution for transit packaging.

Let's protect the environment for future generations...
